RATIFY CAMBRIDGE AS THE PLACE FOR NEXT GAMES.

Championships to Ge to Philadelphia the construction of a unique gliding ma-Next Year-Virginia, Bowdein and chine. M. I. T. Admitted to Membership -Harry E. Hall, Columbia President.

The Intercollegiate Association of Ama-Astoria yesterday, and along with the elecn the East were discussed. One of the most important of these was the selection of a stadium at Harvard was selected. It was added to convert it into a perfect flying the feeling of those present that Pennsylvania shall have the meet again in 1910. Theodore G. Rockwell of Cornell presided

answered the roll call were as follows: Amherst, D. D. McKay; Brown, L. L. Larranbee; Columbia, Harry E. Hail; Cornell, Theodore G Rockwell; Dartmouth, G. T. Burns; Fordham J. S. Baidwin; Harvard, J. D. Leland; Michigan, R. T. Sayles; New York, A. J. H. McGrath: Penn sylvania. A. L. Geyelln; Princeton, D. O. Meece Swarthmore, J. A. Miller, Jr.; Syracuse, W. W. ter, Jr., and S. H. Cook; Yale, Mortimer A

After the minutes of last year's convention were read and adopted the chairman took up the new business before the con clave, which happened to be the application of three colleges for membership in the of Virginia, Bowdoin College and Massachipsetts Institute of Technology. The letter from Virginia asking for admission created some amusement among those present and was original and harmless. It said that after "a letter from Gus Kirby" and a "talk with Mike Murphy" Virginia had decided to be ranked among the big colleges of the East. That it had material to battle on track and field there was not much doubt, for it further stated: "We have Jim Recfor, the sprinter, and L. J. Martin, who ran the 100 yard hurdle in the record time of 12 seconds at the Johns Hopkins University meet." From the conversation of some of the delegates around the room it was learned that Virginia also had some good quarter milers and a relay team that took the measure of Pennsylvania at one of the indoor meets recently. On a motion by G. T. Burns of Dartmouth, seconded by D. O. Meese of Princeton, Virginia was admitted. So Jim Rector will have a chance to show himself in the sprints and hurdles. Marthy will no doubt be extended over the high sticks. On a motion by Joseph D. Leland of Harvard, seconded by H. E. Hall, Columbia, Massachusettes Institute of Technology was elected. G. T. Burns of Dartmouth moved that Bowdoin be admitted, and there being no dissenting voice the Maine institution was duly elected. Bowdoin held membership in the association some years ago.

There was no objection to Harvard getting the track and field fine this year and Pennsylvania having it in 1912. S. H. Cook of Syracuse University spoke in favor of the Syracuse University spoke in favor of the Syracuse Stadium for these latter dates. He said that they would have ample room every way for such a big affair, and the convention appears to favor Syracuse, though of of Virginia, Bowdoin College and Massasetts Institute of Technology. The

duly elected. Bowdoin held membership in the association some years ago.

There was no objection to Harvard getting the track and field meet this year and Pennsylvania having it in 1910. It was agreed that any place having proper accommodations should have the meet in 1911 or 1912. S. H. Cook of Syracuse Unit iversity sooke in favor of the Syracuse Stadium for these latter dates. He said that they would have ample room every way for such a big affair, and the convention appears to favor Syracuse, though of course 1911 and 1912 are along way of.

In alteration of Article X. of the bylaws was adopted. It empowers a college or university to enter twenty men instead of twelve in the cross-country run, in which contest twenty men and the first five qualify.

The receipts and expenditures for the fiscal year were not made known, but it is no segret that the association is in good financial condition with thousands of dollars to its credit. Although the track and field meet at Franklin Field, Philadelphia, was spoiled on the second day by a miniature deluge there was a profit of \$700 evertheless. In connection with the meet there was only one intercollegiste record and this was in the pole vall. William and a new mark. The day following they only jumped about if feel in the qualifying trials the first day, and this made a new mark. The day following they only jumped about if feel in the medal of the ticket. He is Harry E. Hall, who last year filled the office of treasurer. The Blue and White

being placed at the head of the ticket. He is Harry E. Hall, who last year filled the office of treasurer. The Blue and White has not been so honored since 1903, when Expest Stauffen was elected president, and prior to him was Gustavus T. Kirby in 1806. A. L. Geyelin of Pennsylvania was elected on the executive committee. He is the second son of H L. Geyelin, who won the high jump championship for the committee high second son of the leasurer lie is the second soir of H L. Geyelin, who won the high jump championship for the Quakers away back in 1877. Geyelin, sendor, was present yesterday, and it is a notable fact that he has never missed a convention since the first one, thirty-three years ago, the first one bad don't be schedule of a championship tournament is: Monday, eighteen holes; the first one first

President Harry E. Hall, Columbia. Honorary Vice Presidents W. W. Porter, Jr., Syracuse, and G. T. Burns, Dartmoutin Secretary—A. Joedyn H. McGrath, New York Treather H. K. Gilmour, Princeton.

Trechtive Committee Mortimer A. Seebury, ale: Theodore G. Rockwell, Cornell; Joseph D. cland, Harvard; A. L. Geyelln, Pennsylvania, Advisors Committee—Gusavus T. Kirby, Combia; Thoraton Gerrish, Harvard; Romeyn erry, Cornell,
Faculty Cosmittee—Cornell, Prof. Herman inciderichs, C. eliman, Pennsylvania, Prof. R. sit McKenzie, Dartmouth; Dr. C. E. Bolser; ale—Prof. W. L. Phelps: Harvard—Name to be yen late.

After the meeting adjourned the execu-tive and advisory committees held a joint meeting and appointed James E. Sullivan, president of the A. A. L. referee of the track and field meet. Joseph D. Leland of Harvard was appointed manager of the meet, which this year will be held on Friday and Satuzday, May 28 and 29.

Shating Races.

The speed skaters had a night of good sport in the St. Nicholas Skating Rink last night. Four events were decided and in each the contest was a close one. N. G. Bruckner won the novice race and Frank Hart finished second. Hart has been protested, but the judges have not taken any action. The half mile handicap was won by Phil J. Kearney, who started from scratch. E. A. Taylor won the one mile handicap for elass A men and Granger, who started from scratch, could only ket linto third place at the finish. A race for boys was won by Emmett Bird. The skaters have been racing for a handsome cup donated by Sain C. Austin and named the Austin point trophy. This has been won by Clarence Granger of the Wanderers Hockey Club. The summaries:

Novice Race—One-quarter mile—Won by N. G. Bruckner, Park Circle Club Hoboken: Frank Hart. N. Y. A. C. second: Winthrop Taylor, School, fourth. Time, 48/3 seconds.

Half Mile Handicap—Won by P. J. Kearney, Wanderers H. C., 35 yards, second: A. F. Ingold, Wanderers H. C., 35 yards, second: A. F. Ingold, Wanderers H. C., 35 yards, second: A. F. Ingold, Wanderers H. C., 35 yards, second: A. F. Ingold, Wanderers H. C., 35 yards, seconds.

Done Mile Handicap—Class A. Ilmit 100 yards—

Done Mile Handicap—Clas

Wanderers H. C., to yards, third. Third Research 24 3-5 seconds.

Boys' One-quarter Mile Race—Won by Remmett Bird, St. Nicholas S. C.; Arthur Gershal, De Witt Clinton H. C., second. Time, 58 1-5 seconds.

One Mile Handleap—Class A, limit 100 yards—Won by E. A. Taylor, N. Y. A. C., 70 yards; Kenneth Dayton, Wanderers H. C., 90 yards, second; Clarence Granger, Wanderers H. C., scratch, third. Time, 2 minutes 57½ seconds.

McGinnity's Release.

telegram was received yesterday by Joe McGinnity from John T. Brush at Marlin bpring, Tex., which said: "The New York club gives you your un-conditional release. With it goes our best

conditional release. With it goes our best wishes for your future wherever your course may lie. You have been a credit to baseball and a grand example to all who follow you for all time to come. You deserve a pedestal in the baseball hall of fame."

To this McGinnity replied:

"I thank you for release and wishes for my future success. You have shown the same liberal spirit as you have done in the past and it is appreciated."

A UNIQUE GLIDER.

Principle-Other Aerial News. Louis R. Adams, founder and first president of the Long Island Automobile Club and one of the founders and directors of the Aeronautic Society, has just finished

Not for its uniqueness alone, however, i its claim to interest and value. It has t listinct advantage over any flying machin yet built. The angle of incidence of either teur Athletes of America held its thirty-fourth annual convention at the Waldorf-be changed by the operator during flight. This feature applied to a motor driven officers for the ensuing season sev- flying machine would be of the utmost eral vital matters touching on college sport service in getting started and gathering speed. The glider is, of course, meant solely for the pleasure and practice of ocation for the annual track and field meet gliding; but it merely needs to be increased this spring, and after due deliberation the in size and have a motor and propeller

machine. As built, the glider has a spread of 16 feet and a depth of 414 feet from front to and the delegates with their colleges who rear. The upper and lower surfaces are spaced about four feet apart. surface is entirely covered with unbleached muslin, but the upper surface is left free of covering for about two feet from each

extremity. The two sustaining surfaces are held apart by two vertical braces and also by two spreaders at an angle of about 35 degrees with the horizontal. The spreaders extend from the front edge of the lower surface to the rear edge of the upper surface, and the vertical braces extend from the rear edge of the lower to the front edge of the upper surface. The spreaders work on rachets which are screwed to the vertical braces. The operator may by pulling down or

pushing up on the spreaders change the angle of the whole upper plane.

provided for weeding out the poorer players. We have tried medal play, with the result that there has not been a championship. either of the U. S. G. A. or the W. G. in which one or more players of the first rank has failed to qualify, owing possibly

A suggestion based on the Jermain method for the schedule of a championship tournament is: Monday, eighteen holes match play against par, sixty-four to qualify; Tuesday, first match round, eighteen holes; Wednesday, second and third match rounds, eighteen holes; Thursday, fourth match round, thirty-six holes; Friday, semi-final, thirty-six holes; Saturday, mai, thirty-six holes. The sponsor states: "Under this schedule no player who should be good enough to last to the semi-final would fail to qualify. Also it would make the last three and most decisive rounds thirty-six hole matches, the weeding out rounds being at eighteen holes."

The committee might find it burdensome to verify the cards and to determine how each man came out against the par, but by increasing the number of auditors the checking up would not be a delay.

E. F. Hunt won the handicap at the Dyker Meadow Golf Club yesterday, 89, plus 2-91. PINEHURST, N. C., Feb 27.—Mr. J. G. Nicholson and Mrs. William West were the winners of the medal play mixed foursomes for trophies offered by the Country Club, scoring 92 net and playing with a handicap allowance of five strokes. The best of the eighteen cards were:

Mr. Nicholson and Mrs. West Camden, N. L. C.

NEW RIVAL FOR LONGBOAT. Appleby, English Amateur Champion,

May Try to Avenge Shrubb. MONTCLAIR, Feb. 27 .- On board the Lucania, which is due in New York tomorrow morning, is Fred Appleby, the famous English middle distance runner, holder of the English fifteen mile record. Appleby still retains his amateur standing. but it is believed that before he returns to England he will have tested the running powers of Longboat, Dorando, Shrubb and other professional racers in this country. Appleby is a personal friend of Alfred I thank you for release and wishes for my future success. You have shown the same liberal spirit as you have done in the past and it is appreciated."

Joe Doyle Signs.

Joe Doyle, the pitcher of the New York Americans, signed a contract yesterday with the club and will play again next sea.

A. M. Nahon, who has been secretary of the club for some years, has resigned to go into some mercantile business and Thomas Davis, who has been Mr. Nahon's assistant for a long time, has taken his place as secretary.

Shrubb and the failure of the latter to beat Longboat in the Madison Square Garden race was a eore disappointment to him. Appleby has expressed a desire to race with Longboat and if he decides to enter the professional ranks it is likely that his efforts will come directly to Montclair, where he will be the guest of his brother-in-law, Harry J. Bruno, on Giates avenue. It is probable if he arranges to race in this country that he will train under the direction of F. W. Dixon, physical instructor at the Montclair High School, who had Shrubb in charge when he prepared for his race with Longboat on the grounds of the Montclair Athletic Club. Shrubb and the failure of the latter to beat

the permanent ownership of the cup fell to

The Stevens trophy, which happens to be a gun, was won out by F. A. Hodgman. Yesterday's leg was secured by T. J. Mc-Cahill and this left two legs apiece to Mc-Cahill and Hodgman. They shet off and Hodgman was the victor by two targets, though he aflowed his opponent a handicap of S. Along with this good work Hodgman hung up a new club record in the line of a straight break. He made 54 without a miss which is the history exercises.

stiller of the Chibbase Farrests Out of 100-Merring Control of the Chibbase Farrests Out of the Chibbase Farres RUN DOWN AT THE SIDE?

THERE IS TROUBLE AHEAD IF THEY ARE

attending to the mending of their shoes. When your heel is worn at the side or at the back, your body is thrown out of plumb. The centre of gravity changes, your nerves and muscles and the brain that directs both are subjected to a constant strain in the effort to readjust the equilibrium. You are unconscious of this, but the effect on the system is none the less harmful.

If you look at a dozen working girls you will find more than half of leather heels that are too high, them with their feet and ankles bent over because the heels of their have them cut down; if you wear shoes, often ridiculously high, are worn away.

It would pay the owners of big stores to arrange for a cobbler to do to receive a perpendicular line over the shoes of the girls at cost. We should be glad to hear from any passing down through the centre big employer willing to adopt this idea. He would be well repaid for his of the ankle, have your heels trouble in the better health and the better efficiency of his employes.

Parents should be careful about the shoes of their children-keep enough to fit this description. the heels low and keep them always in repair. We wish to say as emphatically as possible that great harm may be done to the nervous sys- leather heels, do so; but you must tem of a growing girl by neglecting the feet and the balance of the body. keep them righted up every little This is one of the very simple things that people neglect or forget. while. That, however, is a bother, ATTEND TO IT.

As soon as a heel on your shoe

is worn down HAVE IT MENDED. Part of an editorial taken from the New York Evening Journal is There are tens of thousands in a big city-young women especially reproduced here for your benefit. You are told the danger of throw--that suffer seriously in their ing the body out of plumb, how it health because they neglect the affects injuriously the muscles, very simple but important duty of nerves and brain, all of which must be admitted, and all of which is directly traceable to throwing disproportionate weight where it does not belong, when walking or when standing.

> What are you going to do about it? Simply this: If you wear leather heels which are too short pulled off and replaced with ones which are long enough and low

> If you insist upon wearing and it is expensive also.

But If You Want To Do the Sure Thing Have Your Boot Heels Fitted With

O'Sullivan's Heels of Live Rubber

Don't wait; attend to it at once.

Now you will say: "This is an advertisement. Why O'Sullivan's?" lust because they are the only heels on the market which are made of Live Rubber, and because Live Rubber is essential to the mission of the rubber heel.

You cannot tell Live Rubber from ash-barrel rubber at sight, but you can in wearing, because it has elasticity and durability.

The menace to public health of wearing leather heels is manifold, and it finds expression in the leading American magazines and metropolitan dailiesat the present time; therefore, there must be something to it. The leather heel must give way to the heel of Live Rubber, because it ought to.

The editorial above quoted points out the injury which run down leather heels are to the health. If that were all, it would not be so bad; but the cruel trouble is that the high leather heel renders it impossible to walk gracefully, and predisposes one to Lowell, Mass.

weak insteps and all the kinged troubles which follow in their train.

Spring is drawing near; the athletic spirit is abroad in the land. Walking is the handmaid of Health; it gives one a good appetite, good digestion, and all the blessings which follow a well-ordered organism. Live Rubber Heels encourage you to walk; they make it fascinating, and professional pedestrians assert that by wearing Heels of Live

of I Goal to O.

Playing against the eleven of the Staten Island Football Club at Livingston, Staten sylvania State College baseball squad has players of the Crescent Athletic Club were didates. Cree, Haverstick, Coulson, Bob defeated by the score of 1 goal to 0 in the Vorhis and Mitinger are lost this year and defeated by the score of 1 goal to 0 in the first match of their spring schedule. Close work marked the first half and honors were fairly even until about fifteen minutes before half time. At this stage G. Van der Zee, the Staten Island goalkeeper, playing in the forward line, ran the ball up the field and passed to A. Van Laar. The latter in turn yielded the ball to A. Santer, who sent in a beauty past R. Armstrong in goal. This proved to be the deciding point in the game.

Within ten minutes of the end the Crescents, who had repeatedly got within shooting distance of the home goal, were allowed a "corner," and Capt. W. D. Andrews took "Watson of Kisky H. S. is a new catcher."
